“ I like the AJAX format betetr, but the classic Joomla one is not bad. Yeah. We just reinvented the wheel. If users doesnt like it, we will revert it to default Joomla layout. The controls need to be more nicely organized for people who are not familiar with managing lists and spreadsheets. They are being worked upon. This is only an Alpha Testing site. The action of “Add a New Obituary” needs a really prominent button, and more instructive text with hover text instructions would be good too. Agreed. These will be made to look betetr once the major functionality is completed. Do you plan to make front end management of obituaries available to Joomla 1.5 as well, or just 2.5? I need this ability for a client’s site. Yes, we will have all these features for all the current Joomla versions viz. Joomla 1.5, Joomla 1.7 and Joomla 2.5.
